The LEA must reserve at least 20 percent of funds to address learning loss through the implementation of evidence-based interventions and ensure that those interventions respond to students' social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care).	Increasingly, top education researchers agree that tutoring programs for students who lost ground over the last six months should be a top priority for federal investment. A report prepared by the Office of the Deputy Secretary, The Department of Education, DC. Planning and Evaluation Service, Corporation for National Service, Washington,	273,719.22	Increasingly, top education researchers agree that tutoring programs for students who lost ground over the last six months should be a top priority for federal investment. DC. 2001-00-00 9p. found evidence that tutoring works. Recent studies have used fall 2020 assessment data to measure the extent to which lost instructional time is affecting student performance. A comparison of fall 2020 Northwest Evaluation Association (NWEA) Measures of Academic Progress Growth assessment data to fall 2019 data found that students in grades 3-8 performed similarly in reading to same-grade students in fall 2019, but about 5 to 10 percentile points lower in math. Two tutoring programs in Dade County, Florida, that trained cross-age and adult volunteer tutors to work with elementary school students found that tutees outperformed a randomly assigned control group of students who were not tutored and outperformed schools offering math labs or reading labs. [Madden, N.A., & Slavin, R.E. The purpose for the Liaisons

Louise Yorke, Pauline Rose, Stephen Bayley, Darge Wole, and Paul Ramchandani RISE Ethiopia Country Research Team found that the importance of focusing on students' socio-emotional learning, especially in the context of the ongoing COVID-19 pandemic is crucial. Students' mental health and wellbeing are a pressing concern, which has become even more urgent in the context of the current crisis. The COVID-19 pandemic has brought the essential role of SEL into focus and has drawn attention to the need to take a more holistic approach to students' learning and development.

2021-2022

DULCE INDEPENDENT SCHOOLS

Understanding more about how students' mental health and wellbeing has been affected during the pandemic—including both the risk and protective factors—is critical, and efforts must be made to prioritize students' mental health both during and beyond the current pandemic.

SEL has particular relevance for disadvantaged groups (e.g., girls, students with disabilities, students from low-income families) who received limited support during the school closures. To address the widening inequalities between students, there is a need to tailor support to the holistic needs of students, alongside efforts to address inequalities between groups. Research illustrates that by adopting an interdisciplinary lens to integrate culturally relevant pedagogy (CRP) and culturally sustaining pedagogy (CSP) into SEL programs promotes student well-being and academic

ARP Grant Application

2021-2022

DULCE INDEPENDENT SCHOOLS

achievement across contexts.

Previous research advises that one of the most effective ways to improve social and emotional skills, academic achievement, attitudes, and behaviors is through the incorporation of SEL and/or culturally responsive pedagogy. By contracting with SEL support specialists online and/or from the community we will be able to support all students in our schools and community.

Our remote location and accessibility of our district on reservation land, it is very difficult to bring in support staff. We would like to contract with 3 online SEL specialists to encourage self-awareness and mindfulness, which may ultimately translate to more thoughtful and engaged citizens who feel a sense of duty their communities. For example, the Social Justice Humanities Academy in Los Angeles uses councils as part of their school's

ARP Grant Application

2021-2022

DULCE INDEPENDENT SCHOOLS

advisory classes to build community and create space for “the practice of listening and speaking from the heart. We would like to incorporate a similar approach to meet social emotional and mental health needs that is responsible to the trauma of COVID-19. Actively engaging students in meaningful and culturally and linguistically relevant learning experiences rooted in high academic expectations for all students including robust civics education that includes youth participatory action research and opportunities for activism on issues students care about and will benefit all students, and in particular has the potential to engage and uplift youth, students with disabilities, and those from low-income communities who face barriers to civic participation. Budget: Contract Service (3) SEL online specialist @ \$29,166.67 each X 3 = \$87,500.00 2 years = \$175,000.00

Response Efforts - COVID 19

Allowable Activities for Remaining Funds. Consistent with PED’s priority to close the digital divide, LEAs must explain how they are using ARP ESSER funds to ensure access to digital devices and other technology for at-risk students and teachers who need them, as well as Internet technology support services. Digital devices must be capable of meeting at-risk students’ remote learning needs and teachers’ remote teaching needs. Digital devices must allow for the reliable download and upload of assignments, streaming of instructional videos, and participation in individual and group video conferencing. In the category below “purchasing instructional technology,” please include in the narrative an explanation of how the LEA is meeting this priority and a dollar amount that will be used for these purposes.

exposed the larger digital divide between student opportunity and achievement beyond the four walls of a classroom. By putting a device in every child’s hand and providing Wi-Fi alone doesn’t bridge the digital divide, therefore we are going to use these funds to contract with 3 technicians, one for each school site, to leverage software programs and technology to Support Students’ and Teachers’ Needs (‘tech equity’). The rapid switch to technology means that everyone needs to move from just consuming and sampling new technology to a true application and reliance on digital tools to transfer learning. Focusing on tech equity in virtual and in-person instruction strengthens 21st-century skills. Continuous learner-centered design will help us build upon tech equity advances so that we can unite all learners through inclusion and access for success. By contracting with technicians and software specialist we will be able to leverage technology to support all students’ needs—and teach teachers how best apply instructional design through culturally responsive teaching to assist learner-centered modalities.

Migratory students	9/20/2021	9/21/2021	
Children who are incarcerated	9/22/2021	9/10/2021	
Other underserved students	9/6/2021	9/6/2021	

Interim Final Requirement: Under this requirement, an SEA must engage in meaningful consultation with various stakeholder groups on its ARP ESSER plan and give the public an opportunity to provide input on the development of the plan and take such input into account. Specifically, an SEA is required to consult with students; families; Tribes (if applicable); civil rights organizations (including disability rights organizations); school and district administrators (including special education administrators); superintendents; charter school leaders (if applicable); teachers, principals, school leaders, other educators, school staff, and their unions; and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students in the development of its ARP ESSER plan. Under the requirement, an SEA must also provide the public with the opportunity to provide input in the development of the plan and take such input into account.

*Meaningful consultation means each stakeholder group was afforded multiple opportunities to provide feedback on the LEAs ARP application prior to the application being submitted. Pursuant to 2 C.F.R. § 200.332(a)(5), all sub recipients as identified in Exhibit A, attached to this sub award, must permit PED and auditors access to records and financial statements as necessary.

Required Information - GEPA

	Required Narrative
<p>Please describe how the LEA will comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a). The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the program.</p> <p>For examples of applicable, relevant, acceptable responses, please see: https://www2.ed.gov/fund/grant/apply/appforms/gepa427.doc</p> <p>GEPA Rubric</p> <p>A satisfactory answer</p> <ul style="list-style-type: none"> • Describes potential barriers to accessing aspects of the proposed spending plan based on criteria such as gender, race, color, national origin, (dis)ability, and age • Describes steps that will be taken to eliminate or reduce those barriers to ensure equitable access <p>May require revision</p> <ul style="list-style-type: none"> • May not clearly or completely describe potential barriers to accessing aspects of the proposed spending plan based on criteria such as gender, race, color, national origin, (dis)ability, and age • May not clearly or completely describe steps that will be taken to eliminate or reduce those barriers to ensure equitable access 	<p>The challenges we have encountered is that our school district is in a rural area and located on the Jicarilla Apache reservation. Our school population is 97% Native American and has a population that is 92% poverty level. Our school district has followed the guidelines of the tribe and have closed activities and schools according to the community needs. At times the reservation was on lock-down. Our students had limited technology connectivity and often live with elderly (grandparents) family member. By addressing the learning loss and increasing</p>

opportunities for students to recover from participating in CTE opportunities, as well as ensuring safety of all students we have developed a plan to support our students and community. Our teachers experienced a different type of social dynamics; students had difficulty presenting themselves effectively online. We will address this by having a wellness liaison at each school site that will support students to actively participate. Due to lack of training and or access, students have limited knowledge of technology use. Teachers also need professional development in using technology and digital media in the classroom. Since there was very little access to computer connectivity on the reservation, teachers rarely used technology or software programs as part of the student curriculum. We are addressing both student and teacher concerns with effective experience when integrating technology and digital media in

	<p>the classroom by providing a technician at each school site to provide support for all students, families and teachers experiencing technology concerns including software inefficiencies. Our buildings are not meeting covid ventilation requirements and therefore hope to address this issue with these funds.</p>
<p>The LEA agrees to comply with the following requirements regarding Maintenance of Equity for High Poverty Schools: (c) LOCAL EDUCATIONAL AGENCY MAINTENANCE OF EQUITY FOR HIGH [1] POVERTY SCHOOLS.— (1) IN GENERAL.—As a condition of receiving funds under section 2001, a local educational agency shall not, in fiscal year 2022 or 2023— (A) reduce per-pupil funding (from combined State and local funding) for any high [1] poverty school served by such local educational agency by an amount that exceeds— (i) the total reduction in local educational agency funding (from combined State and local funding) for all schools served by the local educational agency in such fiscal year (if any); divided by (ii) the number of children enrolled in all schools served by the local educational agency in such fiscal year; or (B) reduce per-pupil, full-time equivalent staff in any high-poverty school by an amount that exceeds— (i) the total reduction in full-time equivalent staff in all schools served by such local educational agency in such fiscal year (if any); divided by (ii) the number of children enrolled in all schools served by the local educational agency in such fiscal year. (2) EXCEPTION.—Paragraph (1) shall not apply to a local educational agency in fiscal year 2022 or 2023 that meets at least 1 of the following criteria in such fiscal year: (A) Such local educational agency has a total enrollment of less than 1,000 students. (B) Such local educational agency operates a single school. (C) Such local educational agency serves all students within each grade span with a single school. (D) Such local educational agency demonstrates an exceptional or uncontrollable circumstance, such as unpredictable changes in student enrollment or a precipitous decline in the financial resources of such agency, as determined by the Secretary of Education</p>	<p>True</p>
